## .....Australian Piercing Systems.....

Thank you for taking the time to view our latest catalogue detailing our comprehensive range of Ear and Nose Piercing and our fashion jewellery ranges plus our attractive and unique instore displays.

We believe that our exceptional product range, packaging and display presentation will look good in your store and will create a wide appeal to your customers.

Although we are a relatively young company we have the backing of the world renowned Studex brand of ear and nose piercing jewellery and equipment.

The Studex brand is a highly profitable product range and achieves the following profitability.

<b>Ear Piercing @ \$29.95</b>	<b>= 205% Mark Up / 67.2% GP</b>
<b>Nose Piercing @\$39.95</b>	<b>= 206% Mark Up / 67.3% GP</b>
<b>Belly Piercing @ \$79.00</b>	<b>= 212% Mark Up / 67.9% GP</b>
<b>Fashion Earrings / Jewellery</b>	<b>= 130% Mark Up / 56.4% GP</b>

As market leaders we understand the need for professionalism within the industry and we offer free in store training and certificates to all of your staff and managers that pass the course.

For over four decades the Studex name has signified excellence in ear piercing systems. With over 30 offices worldwide, Studex products are recognised on six continents as the finest ear piercing systems and jewellery available.

Studex is the world's largest manufacturer of ear piercing systems and jewellery and is located in Los Angeles, California, USA. Studex ear piercing studs and hypo-allergenic earrings are manufactured using US made surgical steel, 24K plated surgical steel, 14K solid gold and titanium raw materials.

Each stud is manufactured from the finest medical grade surgical stainless steel and is crafted using state of the art Swiss high precision machinery.

Studex realises the critical need for the safety of the piercer and the consumer. All ear piercing studs are packaged and sterilised using the Studex validated sterilisation management program that meets US FDA, Australian and worldwide standards.

Every Studex piercing earring and instrument passes through a stringent quality checking process ensuring the safest and most beautiful piercing products available.

As the global leader in the ear piercing industry, Studex is committed to safe ear piercing around the world and as such adheres to rigorous health and safety standards for our products and employees.

Kind Regards

Australian Piercing Systems Team.

## After Care

### Body Piercing After Gel Care

**#909**  
**(6 x 20g Tubes)**

### Piercing Spray

**#60A**  
**(6 x 60m Spray Bottles)**

### Body Art • Tattoo • Body Piercing Cleanser and After Care

**#907**  
**(6 x 250ml Bottles)**

MediSept Tattoo & Body Piercing Cleanser & Aftercare is dermatologist tested as an effective and hygienic solution intended to cleanse and care for your Tattoo and Body Piercing.

It has a skin neutral pH and contains Ultra-Pure Water and a proprietary manufactured hypochlorite technology (known as Hypochlorous Acid) to cleanse and care for the skin.

Inspired by the study of "Biomimetics or Biomimicry" in which human made innovation, processes, or systems are made by mimicking or imitating nature, Hypochlorous acid is produced and utilised by our body's immune system to address and combat invasive organisms such as bacteria.

Medisept is also pediatrician tested as hypochlorous is also utilised in baby products as baby's skin is particularly sensitive and sometimes susceptible to irritation.

As an Aftercare product, Medisept is an effective and hygienic solution that will continue to help cleanse and care for the skin. Always wash hands thoroughly before touching your tattoo or body piercing area. Apply 2-3 times daily as needed for a three week application period. For tattoo's follow up with moisturizer of choice.

As a cleanser, this hypoallergenic, non-sensitizing and non-irritant formula helps the artist provide a more comfortable experience by keeping the area clean prior to and during the tattoo and body piercing procedure allowing the artist to irrigate and rinse the area with less irritation. Providing a clearer view for the artist and a more comfortable experience to the client during the procedure.

Medisept contains no alcohol, benzalkonium chloride, petroleum, lanolin, oils, steroids or antibiotics. Free from fragrances and colorants and not shown to fade or compromise body art or tattoo.

Each CD contains 5 x 316L  
S/S Nose Studs

## Surgical Stainless Steel & Titanium

### Studex

Studex uses only the finest high grade stainless steel available. Categorised as surgical grade stainless steel, this is the material of choice for the manufacture of high quality ear piercing studs where long term contact with the skin is required.

The Studex ear piercing studs are manufactured using this stainless steel in order to afford the consumer the greatest protection possible against common hazards such as allergies and reactions with the skin.

Studex surgical stainless steel studs combine the look with durability and due to the strong bonding action found in the metallurgic properties of this material it prevents any sensitising though elements such as nickel leaching into the skin. Because of these properties, surgical grade stainless steel is regarded as one of the best materials to use in the manufacture of ear piercing earrings.

The Studex System 75 ear piercing range of ear piercing earrings are made from implantation grade 316L surgical stainless steel. This grade of surgical steel is usually only found in body piercing jewellery. The Studex System 75 range of ear piercing earrings are the only earrings in the world that are manufactured from 316L surgical stainless steel. Studex ear piercing studs are also available in titanium in selected styles only.

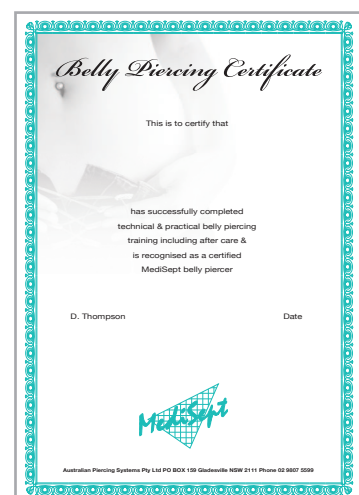

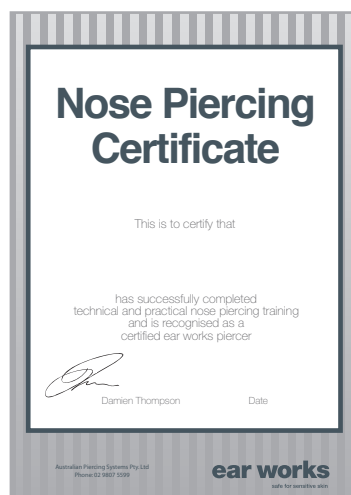

### Medisept

Medisept uses only the finest implant grade of 316L surgical stainless steel for their navel piercing jewellery.

The Medisept nose piercing jewellery range uses only implant grade titanium as it is extremely strong and inert to the human body. If a nickel allergy exists then titanium is by far the best piercing option.

### Training

Australian Piercing Systems provides in store training where possible to all staff and managers. We are very serious about our training program and we require a high level of competency from the piercers. Certificates are issued for all employees that have completed the training to a satisfactory level.
